

Environmental policy

Minimising our impact on the environment

Introduction and aim

The CPC Centre Ltd is a transport training consultancy operating from Marlow, Buckinghamshire. Our main services are to provide training and transport consultancy to professional drivers and transport operators across the country. We recognise that our operations result in emissions to air and water, and the generation of waste. It is our aim to comply with legislation and other requirements, continue to reduce the environmental impacts of our business and operate in an environmentally responsible manner. This policy describes how we will achieve our aim.

Responsibility

This environmental policy applies to all of our operations including management, office services, and transport. Viviane Walker, Owner, is responsible for ensuring that the policy is implemented. However, all employees have a responsibility in their area to ensure that the aims and objectives of the policy are met.

Resources

We will ensure that resources are available to enable us to achieve our objectives and targets.

Objectives

During 2016, we aim to:

- manage our transport emissions effectively
- reduce the generation of general and office wastes
- inform all customers and suppliers of our commitment to reducing our environmental impact

Targets

To achieve our aims, we have set ourselves the following targets:

- inform all customers and suppliers about our environmental policy by January 2017 and, thereafter, all new customers and suppliers
- define eco driving, ensure all employees receive training in eco driving by September 2016 and incorporate this training into the induction programme for new starters
- reduce our carbon footprint against turnover by 5%
- evaluate the costs and benefits of investing in newer vehicles

Monitoring and auditing

Progress against these objectives will be monitored through monthly management meetings.
